2023 Maintenance Fee \$1921.00 plus Hydro plus Taxes (see note below)

Are All Trailers Assessed? Only those trailers that are permanent structures are assessed. The main factors MPAC considers are:

1. Is the trailer greater than 8'6" wide?

Modular, manufactures, mobile home or park model units generally fall within this category

2. Is the trailer 8'6" wide or less, but has an attachment making the trailer immobile without its removal?

Examples include enclosed porches, sunrooms (Florida rooms) or garages

As further indicators of the degree or intent of permanence, MPAC gathers and reviews the following information: The existence of a foundation or supporting structure; whether the undercarriage has been removed; permanent connections to water, electricity & waste disposal; whether the unit's tow tongue has been removed; & whether the unit would require an oversize permit for road travel.

* Since 2019 New Members are no longer allowed to rent their trailer
